CHAIRMAN AND CEO REPORT 2021

GERRY DWYER,
Chairman of the Board

GEOFF BARRY,
Chief Executive

The 2021 year has been one of mixed emotion, with the unbelievable high of our rowing team competing with great success at the Tokyo Olympic Games, alongside the frustrations of the ongoing impact of COVID-19 on community rowing across Aotearoa New Zealand, especially in Te Ika a Māui (North Island) and Tāmaki Makaurau (Auckland).

Long-term though, 2021 should be remembered for the resilience of: our athletes who adapted to the postponement of the 2020 Olympics, and demonstrated the type of commitment required to extend their aspirations and resolve to training for a further 12 months and then deliver such an outstanding outcome on the world stage; and the rowing community who remained steadfast in their motivation to take every opportunity to sustain a programme that enabled rowers across Aotearoa to get out on the water within alert levels and COVID-19 protection frameworks.

GOVERNANCE

The Board has continued to provide strong organisational leadership in challenging times. An important contributing factor to the success of the Board is the balance of experienced and new directors as the sport looks towards 2024, 2028 and 2032.

At the 2021 annual general meeting (AGM) Jock Mackintosh, for his third three-year period and new director Mathew Jensen were elected to the Board. In October, long serving appointed director Geoff Taylor resigned and was replaced by Karen Raitt.

HIGH PERFORMANCE

Our high-performance vision is *Reaching for greatness: creating a legacy through champion performances on and off the water*. Our 2021 Olympic team certainly reached for greatness.

There will be many accolades rightly shared for those who won medals. We must always remember behind the podium success there are many who contribute to that special moment. Whānau, schools and clubs, volunteers, officials, sponsors and supporters all play a part.

The 51 athletes, coaches, and support staff that went into Olympic Village were a very special team. On Sea Forest Waterway they delivered, across nine crew entries, on our target of five medals; three gold and two silver, topping the regatta and displacing the United Kingdom who had dominated for the past three Olympics. Our athletes delivered 43 per cent of Aotearoa New Zealand's gold medals and 25 per cent of all medals in Tokyo.

Tokyo was Rowing NZ's most successful ever Olympic Games. There were many first-time milestones for rowing: the first ever podiums for a women's eight (silver) and women's single (gold); our first ever double medalling crew at an Olympic regatta with gold in the women's pair and silver in the eight; and notably 11 of our 14 first time Olympians won medals from entries in the women's double and women and men's eight.

DEVELOPMENT

In 2019 Rowing NZ conducted a review of the athlete development pathway, which highlighted areas of development primarily focused around

ensuring athletes received the appropriate support for their age and stage, rather than expecting athletes to slot into a one size fits all model.

The National Pathway seeks to guide athletes across four pillars of holistic, self-leadership, physical and technical development using the approach of encouraging athletes to learn, apply and then refine their skills through the pathway.

While very much in its early days, there are some positive signals that as understanding grows, and the pathway starts to deliver value to coaches and rowers/athletes in a differentiated way to how the regional performance centres did, we are seeing positive benefits across Aotearoa.

COMMUNITY

The rowing community continued to adapt to the ongoing challenge of COVID-19 and the many layers and constant changes of mandates, guidelines, alert levels, and phases of the COVID-19 Protection Framework (CPF or traffic light system).

There was a positive start to the 2021-22 regatta season with a successful New Zealand Masters Championships hosted by South Island Rowing (SIR). The balance of 2021 was a 'game of two halves' as Te Waipounamu, less impacted on by government guidelines, pushed forward with a can-do approach, while across Te Ika-a-Māui, alert levels and guidelines made rowing a very stop-start sport.

Since 2019, Rowing NZ has been delivering the Career Coach programme which is targeted at women coaches who have coached for more than four years and have ambitions to continue to coach at a high level or level of leadership within New Zealand. In July, Rowing NZ hosted a combined workshop with the first group of coaches coming together for their final session, and the second group coming together for their first.

In the wider coach development mahi we delivered 14 courses with 78 coaches engaged.

MANAGEMENT

There were some major changes in 2021 with the Chief Executive (Simon Peterson), Marketing & Communication Manager (Anna Williams), and Domestic Rowing Manager (Sonya Walker) all leaving in the first half of the year.

We recognise the material contribution Simon Peterson made to rowing for close to 12 years. Employed as Chief Executive in early 2009, Simon led the organisation through three Olympic campaigns where rowing won eight gold medals; hosted the 2010 World Rowing Championships at Karāpiro; and key projects including the redevelopment of the Colgan Foundation High Performance Centre. Simon was highly regarded by those around him, including athletes and Rowing NZ staff.

People leaving creates opportunity for new people to join the organisation, and in 2021 Geoff Barry started as Chief Executive, Mandy Arnott as Marketing & Communications Manager, Mark Weatherall as General Manager Community and Development, Claire Davenport as Accounts Assistant, Tina Ryan as Athlete Wellbeing Lead, and Matt Cameron as Elite Development Coach.

PARTNERSHIPS

We are very appreciative of the long-standing partnerships we have with Aon and Rocket Foods and the ongoing positive support of Sean and Bibi Colgan, David Richwhite, Peter Masfen, Peter and Kate Harris, and Campbell Myers.

The uniqueness of 2021 provided financial challenges that will be felt well into 2022, and we acknowledge the wonderful support of Derek and Judy Jones under the banner of Rocket Foods as our principal partner, and Geoff, Russell, Debbie and the team at Aon and Bibi and Sean Colgan from the Colgan Foundation as major sponsors, for standing alongside us in uncertain times.

We also receive excellent support from High Performance Sport New Zealand (HPSNZ) and Sport New Zealand Ihi Aotearoa (SNZ). While we have wonderful philanthropic support that supports the delivery of our high-performance programme, HPSNZ is the core investor and they confirmed in late 2021 their commitment to December 2024. SNZ is a valued partner as they invest significantly in community rowing and in our organisational capability.

I am pleased to report, off the back of a challenging 2020 due to the COVID-19 pandemic and the postponement of the Olympics in 2020, the Olympic Games went ahead with the rowing competition held at the Sea Forest Waterway, Tokyo Bay, Tokyo from 23 to 30 July 2021.

Due to the government closing our border to all except New Zealand citizens, all returnees were required to go into Managed Isolation and Quarantine (MIQ) on return to New Zealand, therefore our other representative teams were unable to travel. This is now two years without age group/development teams having international racing experience. We are hopeful in the near future that our border will be open, for all teams to resume international competition in 2022.

This year saw the introduction of our National Pathway focusing on the appropriate age and stage development of our potential representative athletes. Based on an extensive review conducted in 2019 and 2020, change was required to meet the needs of today's young athletes. With the introduction of the National Pathway, the service agreements with our Rowing Performance Centres were not renewed.

Post an Olympics, sports seeking money to operate their High Performance Programme must submit an extensive investment application to High Performance Sport New Zealand (HPSNZ) based on their investment criteria. HPSNZ have made key strategic shifts that we needed to align ourselves with; Performance

A key focus over the past six months has been on how Rowing NZ provides support for athletes as they transition in, through and out of Rowing NZ's high-performance programme.

Pathways, Targeting Investment and Framework, and Wellbeing and Engagement. With the delay of the Tokyo Olympics and as a designated Tier 1 sport, HPSNZ gave Rowing NZ early indication that a minimum of 70 per cent of previous core funding would remain through to the Paris Olympics. Our investment bid was to seek further funding through to 2024. HPSNZ announced their funding decisions in December, designating rowing as a podium sport with an increase in funding received.

WELLBEING

In March this year, Tina Ryan started in the full-time role of Athlete Wellbeing Lead. Tina is responsible for providing overarching

leadership and direction for Rowing NZ's athlete wellbeing programme. Since coming on board, Tina has developed Rowing NZ's High Performance Athlete Wellbeing Plan, which sets out Rowing NZ's key strategic initiatives in the athlete wellbeing space through to 2024, following three key objectives:

- Athlete wellbeing is at the heart of our decision making.
- We create high performers by sustaining the health and happiness of our people.
- Our athletes thrive both inside and outside our organisation.

A key focus over the past six months has been on how Rowing NZ provides support for athletes as they transition in, through and out of Rowing NZ's high-performance programme. A Rowing NZ induction programme is being rolled out to assist athletes entering the various levels of Rowing NZ's High Performance Programme, and athlete mentoring programmes have been implemented across all representative teams and squads to assist athletes to feel connected to and supported by their peers.

Further work has also focused on capturing athlete voice and enhancing the mechanisms through which athletes can feedback into the High Performance Programme to ensure they feel empowered, engaged, and valued. Wellbeing check ins/meetings with all squads training out of Rowing NZ's High Performance Centre have occurred regularly throughout the year. Work has also been undertaken to review the Athlete Representative Group's Terms of Reference and ensure their ways of working are meeting the needs of those

athletes they represent.

Work across Rowing NZ has also begun to enhance the performance environments in which our athletes operate. This includes examination of leadership capabilities and styles, as well as organisational culture and policies. Rowing NZ is committed to creating performance environments that value the human behind the performance.

TOKYO OLYMPICS

Our team achieved our best ever Olympic results achieving three gold medals and two silver medals and came away on top of the rowing medal table. Our team also contributed to a quarter of the entire New Zealand Olympic Team's result of 20 medals in total.

There were a number of historic medal-winning moments:

- Winning Olympic medals in the women's eight and women's single (Emma Twigg) for the first time.
- Kerri Gowler and Grace Prendergast winning gold in the women's pair and silver in the women's eight, becoming the first New Zealand rowers to win multiple medals at a single Olympic Games.
- Hamish Bond became the first New Zealand rower to achieve a gold medal at three consecutive Olympics, winning gold in the men's pair in 2012 and 2016 and gold as part of our men's eight at Tokyo.
- Our men's eight after winning the final Olympic Qualification Regatta in May, came away with Olympic gold, 49 years after our first gold medal in the eights at the Olympics in 1972.

Our team achieved our best ever Olympic results achieving three gold medals and two silver medals and came away on top of the rowing medal table.

- Hannah Osborne and Brooke Donoghue gaining a Silver medal at their first Olympic Games, in the women's double.

The New Zealand Olympic Committee selected nine crews (35 athletes) to compete in Tokyo and with our support team a total of 51 people made up our New Zealand Olympic Rowing Team. Our team included competition in the women's single sculls (W1x), double sculls (W2x), coxless pairs (W2-), women's quad sculls (W4x) and women's eight (W8+), and the men's single sculls (M1x), double sculls (M2x), coxless pairs (M2-) and men's eight (M8+).

Preceding the Olympic competition, a successful pre-Olympic training camp was held on Lake Biwa, Otsu in the Shiga Prefecture hosted by the Seta rowing club led by Hiroshi Sugato. The camp allowed the athletes to acclimatise to the hot and humid conditions they would be experiencing in Tokyo. It also enabled the team to come together in the COVID-19

environment and get used to the many protocols that would be required during their time in Japan. The transition from the pre-games camp into the Tokyo Olympic Village was smooth, and we are indebted to Hiroshi and his extremely capable team for their support and assistance to enable the camp to proceed in what was an extremely challenging environment.

Due to COVID-19 restrictions, the team operated within our own bubble which included two separate floors in the hotel, our own separate dining area, and the rowing club. The team were only able to travel to and from the rowing club by charter bus. We relied on Seta rowing club volunteers to assist with all off-site requirements, such as food shopping.

Due to COVID-19 restrictions, teams at the Tokyo Olympics were also required to adhere to the Olympic Playbook – the operations guide for the Games. Masks were mandatory and daily saliva testing conducted within the Olympic Village. Teams were only able to travel between the Olympic Village and rowing venue and were required to leave Japan within 48 hours of the event finishing. Our team returned to New

Zealand on the first charter flight and were required to quarantine at the Crown Plaza MIQ in Christchurch for 14 days. The restrictions also meant there were no spectators at the Olympics. The New Zealand Olympic Committee provided a venue in the Cloud in Auckland for parents and supporters of our team to assemble and watch our New Zealand team competing.

NATIONAL PATHWAY

In 2019 Rowing NZ conducted a review of the athlete development pathway which highlighted areas of development primarily focused on ensuring athletes received the appropriate support for their age and stage rather than expecting athletes to slot into a one size fits all model. Subsequently, the Rowing Performance Centre service agreements were not renewed in 2021, and a National Pathway was established, supporting a wider group of athletes in their home environment. The National Pathway seeks to guide athletes across four pillars of holistic, self-leadership, physical and technical development using the approach of encouraging athletes to learn, apply and

then refine their skills through the pathway.

The 2021 winter was a transition period between the old and new structures. Consultations and winter plans ran concurrently with associations tasked with organising winter regional programmes to support athletes outside of the main rowing season. With little notice, the associations and hard-working volunteers across the country were able to establish regional programmes engaging approximately 250 athletes across New Zealand in training camps, weekly activity, education sessions and opportunities to connect with one another.

Three National Pathway coaches, Fiona Bourke, Mark Stallard and Nick Barton, were appointed in April 2021 and assisted by Jared Cummings to work with the associations to support coaches and athletes in the regions with their development over the winter. Due to COVID-19 restrictions the final event planned for pathway athletes, a National Development Camp and Regatta in August, had to be cancelled. However, 125 athletes were included in the first wave of those selected into the 2021-22 National Pathway, with multiple entry

points allowing for further selections as the year progressed.

On the back of the regional consultations and insights gathered around the athletes entering the pathway through the winter, the National Pathway evolved into a tiered support structure, with selection criteria refined for the 2022 season to allow for entry via regatta performances. The Rowing NZ Long-Term Athlete Development Framework (LTADF) was adopted by the Rowing NZ Board in September 2021, outlining the basic principles underlying the athlete development approach moving forwards. A key principle of the National Pathway is to provide multiple entry points for athletes to enter and progress through the stages.

In September 2021, the Rowing NZ Board established a LTADF working group. The committee members are Alex Mates, Kristy

Dunhill, Raechel Cummins, Gerry Dwyer, Nadia Bleaken and Brett Reid. The purpose of the LTADF working group is to advise and support the successful implementation of the Long-Term Athlete Development Framework (LTADF). The other purpose is to consider the system level attributes that need to be in place to create the environment that will enable athletes to flourish and reach their aspirations and potential in rowing.

The LTADF will be continually reviewed and adapted, with a formal evaluation scheduled to take place in 2023 to determine the ongoing strategy for the next Olympic cycle.

ELITE DEVELOPMENT PROGRAMME

The Elite Development Programme was initiated to address the fact that 2020 is the first year of the Paris Olympic cycle and there was a need to bridge the gap between

In 2020 four athletes were invited into the Elite Development Squad, a number which grew to 16 following a successful winter development programme in 2021.

the Regional Performance Centre and Summer Squad. In 2020 four athletes were invited into the Elite Development Squad, a number which grew to 16 following a successful winter development programme in 2021. These athletes continue to train on a transition programme alongside the returning Olympians, with the aim of successfully progressing into the summer squad over the next two years.

To support the unique needs of this group, Tom Stannard was appointed to lead the programme in April, and the coaching team was further strengthened in October with the addition of Matt Cameron.

COACHING

Prime Minister's Scholarship – Performance Coaching

In 2021 the approach for the Prime Minister's Scholarship was slightly different compared to previous years as we took a more individualised approach. There were a number of factors in making this decision; the ongoing COVID-19 situation provided a challenge around scheduling in-person workshops, we wanted to make it more targeted as the coaches on the programme had been involved for several years, and HPSNZ started a new coach development programme called Core Knowledge, which supported many of our coaches in their formal development.

Core Knowledge was a great opportunity for the wider coaching group to connect with each

other and coaches from other sports and hear from new presenters. The opportunity was made available to coaches who had been part of 2021 teams from Under-18s through to Under-23s, our pathway coaches, coaches who had been involved with the Career Coach programme, and coaches who had previously been involved in our programme but were not currently, due to family, work, or personal reasons. In total Rowing NZ had 15 coaches take part in 2021.

As the New Zealand age group teams didn't travel and spent more time training in the regions, the funding was used to support the coaches to travel to their rowers and partake in local training and camps. It supported those coaches who were involved in Core Knowledge to fund their travel, accommodation, and meals for the first residential workshop held in Cambridge. It also provided the opportunity for coaches from the Under-23 team and a group of coaches based in Canterbury who are involved with Rowing NZ teams to complete a profile (Hogan Profile) and follow up workshops to develop self-awareness and understanding of themselves and how they are perceived.

Prime Minister's Scholarship – Career Coach

We saw our first cohort come to the end of their time in the programme in 2021 and

the welcoming of cohort two; a new group of eight women coaches from around New Zealand. The Career Coach programme began in 2019 when Rowing NZ identified a need to invest in the development and support of women coaches to enhance diversity in the Rowing NZ coaching teams. In July 2021, both cohorts joined together for the residential workshop at Karāpiro, where cohort one presented their findings of the research they had been conducting for the past six months, looking at different areas of women in rowing.

Another unique aspect of this workshop was supporting Sophie Strachan to attend the programme with her baby daughter. Being able to provide Sophie this opportunity to still be involved and ensure her daughter was well cared for by providing a nanny for her was a priority for us.

Unfortunately, the residential workshop scheduled for September in Auckland with cohort two postponed and then eventually shifted online in November. It was still a positive opportunity for the women to reconnect and hear from a female Olympic coach, a sport psychologist and working with parents in the programme.

The remainder of the programme will see the group come to Rowing NZ at different

times to shadow the New Zealand coaches and experience the organisation, as well as a workshop in July and the final one in September 2022.

The feedback from cohort one at the conclusion of the programme showed all coaches felt the programme had improved them as a coach, and all would recommend the programme to other coaches. A key performance indicator of this programme is to see if we have more women coaching in our New Zealand teams. In 2021, 33 per cent of our coaches were women compared to the last five years, where on average 13 per cent of our New Zealand team coaches have been women. We have also seen an increase in the number of women applying for coaching and selector roles; this includes coaches in the Career Coach programme but also coaches outside of the programme.

TE HĀPAITANGA

Te Hāpaitanga is a holistic coach development initiative designed to enable more women to pursue and maintain a career in high performance coaching in Aotearoa New Zealand. The 18-month initiative provides a range of opportunities that enable future or emerging female high performance coaches to test and develop their coaching ability and develop new

As part of Te Hāpaitanga I'm looking forward to growing and developing as a leader amongst a group of talented coaches involved in a multitude of sporting codes. To be a part of such an inspiring group of talented, passionate coaches is exciting and I look forward to discovering the future impact we can have within our respective sporting codes and the lives of the athletes we have the privilege of working with. — Fiona

skills to navigate a complex and challenging career in high performance sport.

In 2020, Rowing NZ's junior coach Hannah Starnes was selected to Te Hāpaitanga, a programme she has thoroughly enjoyed so far. In November 2021 applications opened for the second cohort of Te Hāpaitanga, and Rowing New Zealand supported and endorsed three women to apply for the programme with Fiona Bourke accepted.

Fiona, a former World Champion rower, is currently a National Pathway coach with Rowing NZ. Fiona is excited about the journey ahead.

ATHLETE RETIREMENTS

During this year, several of our elite athletes retired from our elite training squad: Ashlee Rowe, Kelsi Walters, Zoe McBride, John Storey, Nathan Flannery, Isaac Grainger, Ian Seymour and Mahe Drysdale, and post-Tokyo retirements from Eve Macfarlane, Caleb Shepherd, Chris Harris, and Michael Brake.

Rowing NZ wishes them the best on their next adventure.

Retiring athletes have been supported through a transition program led by Tina Ryan. This process includes exit interviews and

ongoing check-ins where appropriate, payment of a 'Keep Active' subsidy to help athletes safely de-train from the demands of high-performance sport, and most recently, letters of recognition thanking retiring athletes for their service to rowing. Tina has also updated the transition booklet produced by the Athlete Representative Group wellbeing sub-group. This provides retiring athletes with a 'one-stop' resource to help them transition into the next phase of their lives.

SUPPORT

I would like to acknowledge the continued support of High Performance Sport NZ, not only as our major funding partner but as a key contributor with athlete performance support services directly working with our coaches and athletes.

We remain continually grateful to Derek and Judy Jones at Rocket Foods for their ongoing support as our principal partner, and Sean and Bibi Colgan's Foundation support as a major sponsor in naming rights to the High Performance Centre as well as their ongoing support for our women's and men's eight programme.

DOMESTIC ROWING REPORT 2021

Jock Mackintosh,
Domestic Committee Chairperson

While we had hoped 2021 would be a fresh start following a challenging 2020 with COVID-19, it became clear early on that we were set for another year faced with Covid-related disruptions.

Rowing NZ worked hard to provide clubs with guidance as alert level information was established and changed over the lockdown period.

While most regattas were able to proceed between lockdowns, the 2021 Rocket Foods New Zealand Championships was directly impacted, with the planned six-day regatta being run in three days after alert level changes allowed the event to go ahead. Rowing NZ would like to extend a massive thank you to South Island Rowing and all clubs, officials, and volunteers – there's no doubt it was a very challenging time.

With Covid came the ongoing need to use technology to ensure interactions and gatherings took place in a safe manner. Once again Zoom became second nature for many, and this has meant sharing, collaborating and consultation has occurred more regularly and with a greater range of members. This included the likes of the Domestic committee and the newly formed Coastal Rowing sub-committee.

The New Zealand Masters Championships was successfully held in September 2021, with a really positive growth in numbers of rowers attending.

Rowing NZ's Race Official programme continues to be delivered with six new

umpires qualifying during 2021, and work is underway to develop an Officials committee that will be charged with working with Rowing NZ staff to develop and shape umpiring and volunteering across New Zealand.

The Domestic Rowing Committee would like to acknowledge the services of Sonya Walker who left Rowing NZ at the end of the 2021 summer after having poured her heart and soul into the organisation.

In early 2021, Rowing NZ reached out to the community for expressions of interest for more coach developers. This process saw us bring on board five extra coach developers to bring the team for 2021 to a total of nine.

The coach developers came together in April for development and training to prepare for the 2021 development delivery. One coach developer also attended the Sport Canterbury Coach Developer Training Course in April. Once again, the year was disrupted by Covid, however we still managed to deliver a total of 14 courses throughout the year. Of these courses, four were delivered fully online. These were planned online courses and provide us with an alternative way to reach coaches and an extra option for them to select.

The online courses always had a variety of coaches from across the country. Overall, we delivered six Development Modules across Auckland, Cambridge, Wellington, Christchurch and two online, and eight Introduction Modules across Hamilton, Cambridge, Rotorua, Wellington, Nelson,

Rowing NZ worked hard to provide clubs with guidance as alert level information was established and changed over the lockdown period.

Christchurch and online. Participation numbers were down on last year with a total of 85 coaches attending these courses, with 44 men and 41 women taking part. Unfortunately, all three Auckland courses and a course in Whangārei were cancelled due to lockdowns, which would have impacted final numbers. The online format continues to be popular and is something we will keep offering our coaching community.

With the challenges of organising big events, it was decided that Rowing NZ would run the Coach Scholarship programme again in 2021 rather than a conference. However, this was postponed due to lockdowns and the Delta outbreak at the end of 2021 and has been postponed until 2022 instead.

Finally, on behalf of the Domestic Rowing Committee, massive thanks must go to all the regatta officials, coaches, managers, schools, clubs and the countless volunteers and family supporters. Without these people, we wouldn't have the sport that we do.

MASTERS ROWING REPORT 2021

This year's NZ Masters Championships overlapped with the Aoraki 1000 Regatta over three days at Lake Ruataniwha. Both events were run over 1000 metres.

Imogen Coxhead

Weather conditions were warm and the wind stayed away until late on the final day. The warmth was certainly welcomed by masters, who usually have their regatta in September and end up scraping ice off boats in the mornings and nursing freezing feet in wet socks. The postponement definitely worked in our favour, as late October is much more hospitable.

This was the first large regatta to be held at Ruataniwha under Level 2 Covid restrictions, and Rowing NZ and South Island Rowing sure did some hard mahi to enable the event. The regatta venue was separated into six zones, each with lake access, and each was allocated a maximum of 100 individuals and separated from the others by 5-metre-wide no-go areas. There were clear guidelines about site access and about who could attend – there were no spectators, for example – and the where kai remained closed.

Where you ended up was a matter of luck. Those in zones located by the race course got to watch the races and enjoy the commentary, while others were confined to the boat park with no view and sadly no audible commentary. But hey, who's complaining!

The dovetailing of these two events worked really well and brought a cheerful atmosphere to the boat park as the oldest masters mixed with the youngest and newest rowers on the block.

We were there! Those in the north were not even allowed to leave home, let alone row. You were missed!

All that aside, the racing was heaps of fun and the moana stayed flat and shiny for almost the entire weekend. Despite the lower numbers, many events had full fields and were as hotly contested as ever. Many cobwebs were blown away. I love masters regattas – there's such a shared feeling of camaraderie and respect among all those people who just love to row. The masters nationals is usually a big old social occasion as people catch up with rowing friends and foes from around the motu. This year was smaller of course – 185 competitors from 23

clubs compared to the last time it was held (2019) when there were 303 competitors from 36 clubs – and you could only mingle with the people in your own zone. According to the Riverton team, it was ‘serene and quiet, but bizarre’.

The Aoraki 1000 Regatta started on the second day of the masters’ regatta and was attended by 332 competitors from 11 clubs.

The programme included a number of new events. One highlight was the ‘50/50’ events, with crews comprising 50% novices and 50% experienced rowers. This format was used in double and quad events with

heats and finals running across both days of the Aoraki Regatta. It was great to see older rowers taking youngsters under their wing – tall burly men crewing with slender waif-like novice boys, strong senior school girls with tentative novice girls in pigtails.

The inclusive format brought together rowers from different age and experience ranges and was a great team builder within schools and clubs. The Ruataniwha setting was ideal, too, as it allowed younger rowers to get a taste of the protocols of a large and professionally run regatta.

The dovetailing of these two events

worked really well and brought a cheerful atmosphere to the boat park as the oldest masters mixed with the youngest and newest rowers on the block. The venue looked fantastic, and everyone I spoke to had nothing but praise and gratitude for the people who organised it and made it happen. It was something of a test-run for holding regattas under Covid restrictions, and it worked well. Tena rawa atu koutou – heartfelt thanks to the organisers!

UNIVERSITY ROWING REPORT 2021

After cancellations of major university rowing events due to COVID-19 in 2020, competition resumed this reporting year.

ANNABEL RITCHIE,
University Committee
Chairperson

Three hundred athletes from eight universities gathered at Lake Ruataniwha over Easter for their annual championships.

The weather on Friday refused to cooperate as a southerly front hit the lake and kept the water rough. As a result, championship eights were moved to first thing on Saturday.

University of Waikato won the Women's Championship 8+ (Tamaki Cup) and University of Canterbury won the men's eight (Hebberley Shield). Throughout the day, University of Otago put up an impressive fight to convincingly win The Ashes overall points trophy.

National Tertiary Spirit Medals are awarded to one team at each University and Tertiary Sport New Zealand (UTSNZ) National Tertiary Championship as decided by the participants of that event. The Spirit Medals recognise the team that has displayed the best sportsmanship and captured the spirit of the event. Voting parties include participating teams, event officials and volunteers. For 2021, Lincoln University was awarded the Spirit Medals of the regatta.

Overall, the regatta generated enthusiastic competition, and participants appreciated the repositioning of the boat park to the end of

the MacRae Building so they could watch the racing and cheer for their teams.

During May and August, exchanges were hosted in Otago and Canterbury. Athletes from Auckland, Lincoln, Otago, and Canterbury universities competed. Racing was held in different formats depending on location and weather but included racing over 5km, 1km and 250m in men's and women's eights. The Championship Trophies for the Otago exchange went to the Canterbury men and Otago women. The Canterbury exchange results went the opposite way with the Otago men and Canterbury women taking home the championship titles.

For a second year, COVID-19 caused the cancellation of the Battle of the Bombays and impacted our international campaigns. Both World University and Trans-Tasman teams were selected, and teams attended camps in Otago, Canterbury and Karāpiro throughout the winter. While some World University athletes competed in Winter Series regattas at Karāpiro, no other racing was possible.

SECONDARY SCHOOLS ROWING REPORT 2021

Another successful year has passed for secondary school's rowing.
Rowing.

BRUCE TONG,
Schools Committee
Chairperson

It is great to reflect on a positive year of secondary school rowing after the challenges of 2020. Membership at secondary school level continues to be positive with more and more schools joining and recognising rowing at their schools.

The Aon North Island Secondary School Championships and the Meridian South Island Secondary School Championships were held successfully at each location. With the ever-increasing interest and numbers at these regattas the delivery model continues to be looked at, including adding an extra half day for the South Island regatta, which was positively received.

The 2021 Aon Maadi Cup, the pinnacle event on the school rowing calendar, saw 121 schools and 2081 students descend on Lake Karāpiro, Cambridge. We would like to acknowledge and thank the event's sponsor, Aon, for its ongoing support and huge commitment to school rowing. We also thank Karāpiro Rowing for hosting the event, which saw some great racing over the week.

The conditions were great, and this ensured the regatta didn't miss a beat over the course of the week and some excellent results were achieved. Congratulations must go to Rangī Ruru for winning the Star Trophy for the overall Champion Rowing School.

The 2021 Aon Maadi Cup, the pinnacle event on the school rowing calendar, saw 121 schools and 2081 students descend on Lake Karāpiro, Cambridge.

I would like to thank the Schools' Committee and School Board for their hard work and commitment to school rowing here in Aotearoa – their leadership and guidance is much appreciated.

The committee would like to acknowledge the services of Sonya Walker who left Rowing NZ at the end of the 2021 summer having poured her heart and soul into not only Rowing NZ, but school rowing over the last few years.

Finally, on behalf of the Schools' Committee, thanks must go to the regatta officials, coaches, managers, schools, clubs and the countless volunteers and family supporters for making this a fantastic year for our young rowers.

COVID-19

In March 2020, the World Health Organisation declared an outbreak of the coronavirus (COVID-19) pandemic resulting in the New Zealand Government declaring a State of National Emergency and governments around the world implementing varying degrees of lockdowns in an attempt to contain the outbreak. The New Zealand Government implemented lockdowns, border closures and international travel restrictions in response to the pandemic which continued throughout 2021. As a result, local and

international regattas, were cancelled or postponed; Tokyo 2020 Olympics went ahead in 2021 with no spectators, this was the only international regatta attended in 2021.

The cancellation of the majority of international tours resulted in a significant decrease in high performance costs for the year as a result of no international travel. The 50% rebate of competition license fees in 2021 resulted in a significant decrease in membership income for 2021. In preparing these financial statements, the Group

has considered the potential impacts of COVID-19 on future revenues, asset values and other areas, and believe any impacts are appropriately recognised.

Despite the decline in returns from the NZ Share market, the group's small portfolio of investments was able to generate a positive return and avoid some of the negative impacts by diversifying investments.

Notes to the accounts

For the year ended 31 December 2021

Reporting Entity

New Zealand Rowing Association Incorporated ("Rowing New Zealand") is an incorporated society under the Incorporated Societies Act 1908. The financial statements of Rowing New Zealand for the year ended 31 December 2021 comprise Rowing New Zealand, and the consolidated financial statements of the Group. "The Group" comprises of Rowing New Zealand and its controlled entity New Zealand Rowing Foundation Inc ("the Foundation"). The principal aim of Rowing New Zealand and the Group is to provide leadership that enhances performance and participation in rowing.

Statement of Compliance

The financial statements are prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP). In the case of Rowing New Zealand and the Group, NZ GAAP is International Public Sector Accounting Standards as appropriate for Tier 2 Not-for-profit, Public Benefit Entities applying the Reduced Disclosure Regime (PBE Standards RDR). Rowing New Zealand and the Group have taken all disclosure concessions available. Rowing New Zealand and the Group are eligible to apply PBE Standards RDR as they have less than \$30 million annual expenditure.

Basis of preparation

The accounting policies detailed in the following notes have been applied consistently to all periods presented in these financial statements and have been applied consistently by the Group.

The Group controls an entity when it has the power to govern the financial and operating policies of the entity so as to benefit from its activities. Under PBE IPSAS 6 Rowing New Zealand is considered to have control over the Foundation as Rowing New Zealand receives the majority of the benefits of the Foundation and appoints the majority of the governing body.

The financial statements of Rowing New Zealand and the Group have been prepared using the going concern assumption. The measurement basis adopted is that of historical cost, other than the revaluation of foreign exchange contracts and equity and debt instruments.

COVID-19

In March 2020, the World Health Organisation declared an outbreak of the coronavirus (COVID-19) pandemic resulting in the New Zealand Government declaring a State of National Emergency and governments around the world implementing varying degrees of lockdowns in an attempt to contain the outbreak. The New Zealand Government implemented lockdowns, border closures and international travel restrictions in response to the pandemic which continued throughout 2021. As a result, local and international regattas, were cancelled or postponed; Tokyo 2020 Olympics went ahead in 2021 with no spectators, this was the only international regatta attended in 2021.

The cancellation of the majority of international tours resulted in a significant decrease in high performance costs for the year as a result of no international travel. The 50% rebate of competition license fees in 2021 resulted in a significant decrease in membership income for 2021. In preparing these financial statements, the Group has considered the potential impacts of COVID-19 on future revenues, asset values and other areas, and believe any impacts are appropriately recognised.

Significant Accounting Policies

The following specific policies have been applied to all aspects of these financial statements:

(a) Presentation Currency

The presentation currency and functional currency is the New Zealand Dollar. All amounts have been presented in New Zealand Dollars (rounded to the nearest dollar).

(b) GST

Except for trade receivables and trade payables which are stated inclusive of GST, all amounts have been reported exclusive of GST.

(c) Taxation

Rowing New Zealand has an exemption from income tax under section CW46 of the Income Tax Act 2007 as a body promoting amateur games or sports. As such no income tax is payable. The Foundation has charitable status and is exempt from income tax.

Notes to the accounts

For the year ended 31 December 2021

1 Revenue by Operating Unit

Year to 31 December 2021	High Performance	Domestic & Admin	Foundation	Total Group

Net surplus / (deficit)	1,448,763	(154,656)	31,782	1,325,889

2 Revenue Recognition

Revenue from exchange transactions

Exchange transactions are those where the Group receives value (cash or other assets) and gives something (usually goods or services) of approximately equal value in return.

The Group receives exchange revenue from a number of sources. This revenue relates largely to services provided by Rowing New Zealand. These services include international tours for selected athletes, sponsorship benefits to commercial partners, member benefits for licensed rowers and coach development programs for athletes, schools, clubs and universities.

The Group recognises revenue from providing these services in proportion to the stage of completion of the transaction at the reporting date.

Revenue from non-exchange transactions

Non-exchange transactions are those where the Group receives value (cash or other assets) without giving approximately equal value in return. The Group receives non-exchange revenue in the form of government funding, grants, philanthropic funding and donations.

Cash or other assets received from non-exchange transactions are recognised as either revenue or a liability at the reporting date. The specific recognition criteria in relation to the Group's non-exchange transactions are:

- Government Funding and Grants

The recognition of government funding and grants depends on whether the revenue comes with any 'conditions' or 'restrictions'.

If the revenue comes with 'conditions' that specifically require the Group to return the grant if the grant is not used in the way stipulated it is initially recognised as a liability. It is subsequently recognised as non-exchange revenue when the 'conditions' are satisfied.

'Restrictions' that do not specifically require the Group to return the cash or asset if it is not utilised in the way stipulated do not result in the recognition of a non-exchange liability. Such funding or grants are immediately recognised as non-exchange revenue.

- Philanthropic Funding and Donations

Philanthropic funding and donations are voluntary transfers of cash, other monetary assets, goods or services that the Group receives which are free from conditions or restrictions. Philanthropic funding and donations are recognised as revenue at their fair value at the date the funding is received.

Notes to the accounts

For the year ended 31 December 2021	2021	2020	2021	2020
	GROUP		PARENT	
	\$	\$	\$	\$
Exchange and Non-exchange Revenue

Total Grants with Future Obligations	162,806	151,797	162,806	151,797

3 Debtors and Receivables

Debtors and receivables are stated at their estimated net realisable value.

Receivables from exchange transactions	20,166	57,132	19,898	56,479
GST	30,393	66,153	30,393	66,153
Total Debtors and Receivables	50,559	123,285	50,291	122,632

4 Cash and Short Term Deposits

Cash and bank equivalents comprise cash and call accounts and other deposits held with financial institutions with maturity dates less than 3 months. Short term deposits include all cash investments with maturities between 3 and 12 months. The average interest rate prevailing on cash and short term deposits at 31 December 2021 was 0.05% (2020: 0.05%).

The philanthropic funding account is used for the purpose of receiving donations from philanthropists. Donated funds are used in accordance with the wishes of the donor. Board approval is required to allocate funds from this account. There is no obligation to repay the funds.

The liquidity account is used to ensure that Rowing New Zealand has ready access to liquid assets to sustain operations in the event of significant unanticipated increases in operating expenses or decreases in revenue to enable the organisation to preserve its capacity to deliver the domestic rowing programme and support the high performance programme. Funds can only be transferred out of this account in particular circumstances and with Board approval.

4a Cash and Cash Equivalents

Cash and bank balances	1,720,668	1,483,702	1,601,247	1,432,985

Short term deposits	100,000	100,000	-	-
Total Short Term Deposits	440,000	440,000	340,000	340,000

5 Property, Plant and Equipment

Items of property, plant and equipment are initially recognised at cost and depreciated as outlined below. Initial cost includes the purchase consideration, or fair value in the case of a donated asset and those costs directly attributable to bringing the asset to the location and condition necessary for its intended use. Costs cease to be capitalised when substantially all the activities necessary to bring an asset to the location and condition for its intended use are complete.

Depreciation is provided on a straight line basis. The depreciation rates of the major classes of assets reflecting their estimated economic life are as follows:

Boats and oars	20% - 33%
Coaching and gym equipment	10% - 20%
Vehicles	10% - 20%
Computers and furniture	5% - 33%
High performance centre	3% - 4%

6 Investments

Available for Sale Financial Assets

Investments are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, investments are measured at fair value. Changes in fair value, other than impairment losses, are recognised in other comprehensive revenue and expense and accumulated in the revaluation reserve. When these investments are sold or mature, the gain or loss accumulated in the fair value reserve is reclassified to surplus or deficit.

	GROUP		PARENT	
	\$	\$	\$	\$
Available for sale investments				
Shares in listed companies	204,579	173,626	-	-
Bonds	54,979	80,509	-	-
Total Investments	259,558	254,135	-	-

7 Accounts Payable

Accounts Payable are stated at the estimated amounts payable.

Short-term employee benefits are amounts owing to employees where the Group has a legal or constructive obligation to pay this amount as a result of past service provided by the employee. This liability is created (and the expense recorded) as the related service is provided. The employee benefit liability relates to accumulated annual leave and days in lieu owing to employees. These amounts are only recognised as a liability if the obligation can be reliably estimated.

8 Loans and Borrowings

Non-Current Loans

Non-current loans are initially recognised at fair value plus transaction costs and subsequently measured at amortised cost using the effective interest rate method. Fair value is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. The market rate of interest used is determined by looking at assets of a similar maturity and credit risk. Movements in fair value, including those arising from impairment, are recognised in the Statement of Comprehensive Revenue and Expense.

	GROUP		PARENT	
	\$	\$	\$	\$
Sport New Zealand Loan				
Loan drawn down	1,300,00	1,300,000	1,300,00	1,300,000
Previous loan repayments	(174,500)	(174,500)	(174,500)	(174,500)
Previous fair value movements	(1,125,500)	(1,125,500)	(1,125,500)	(1,125,500)
Balance 1 January	-	-	-	-
Loan repayments		-		-
Fair Value movement		-		-
Balance 31 December		-		-
Total Non-Current Loans		-		-

At each balance date the carrying value of the Sport New Zealand loan is determined based on the discounted cash flows of the expected repayments for the loan. Rowing New Zealand must exercise judgement to determine both the expected future cash flows and the appropriate discount rate to apply to each loan. When doing this Rowing New Zealand takes into account the expected repayment term. During 2021 Rowing New Zealand was not required to make a loan repayment under the agreed repayment calculation formula. Based on the formula, Rowing New Zealand also does not expect to make a repayment during 2022. As at 31 December 2021 the balance of the loan has been written down to nil based on forecast future cashflows.

9 Foreign Currency Transactions and Financial Instruments

Rowing New Zealand is subject to foreign currency risk when purchasing equipment and attending regattas outside New Zealand. Where exposure to foreign currency is certain, it is Rowing New Zealand's policy to reduce the uncertainty around exchange rates using forward exchange contracts and foreign currency bank accounts.

The Group holds derivative financial instruments to hedge its foreign currency. Derivatives are initially measured at fair value; any directly attributable transaction costs are recognised in surplus or deficit as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognised in surplus or deficit.

As at 31 December 2021 commitments on forward exchange contracts totalled \$ nil (2020: \$18,331).

Notes to the accounts

For the year ended 31 December 2021

10 Commitments and Contingencies

There were no capital commitments or contingent liabilities at balance date.

At 31 December 2021 an amount of \$95,143 was due in respect of future operating lease payment for vehicles (2020: \$87,932).

11 Related Party Disclosures

The controlling entity of the Group is Rowing New Zealand.

Rowing New Zealand Board Members

From time to time, board members or their related entities may transact with the Group. Rowing New Zealand board members have interests in related entities as follows:

Key Management Personnel

Compensation of the Group's key management personnel includes salaries and non-cash benefits. The Group has recognised an expense of \$663,576 relating to compensation of key management personnel (2020: \$571,912).

Controlled Entity

NZ Rowing Foundation Incorporated

As at 31 December 2021, Gerry Dwyer and Jock Mackintosh were Rowing New Zealand board members in addition to being trustees of the Foundation.

During 2021 Rowing New Zealand re-appointed Ivan Sutherland and Murdoch Dryden to be trustees of the Foundation.

Rowing New Zealand provides administrative services to the Foundation. Rowing New Zealand does not charge for these services or for other goods and services purchased on behalf of the Foundation.

12 Capital Fund

12a Net Surplus for the year

With reference to Article 24.2 of the Constitution of the Foundation, the Board's policy is that all donations not tagged to a specific purpose (less an administration fee) are transferred to the Capital Fund at the end of the financial year. \$19,000 was allocated to the Capital Fund for the year ended 31 December 2021 (2020: Nil).

12b Transfer from Capital Fund to Accumulated Revenues & Expenses

In 2010 the Foundation lent Rowing New Zealand \$320,000. In December 2016 the Foundation converted this loan into a grant which was included in other income for Rowing New Zealand for the year ended December 2016. This amount was being carried forward in the group Capital Fund. This amount was transferred across to the Accumulated Revenue & Expenses account as at 31 December 2021 so as to accurately reflect the balance of the Capital Fund of the Foundation within the consolidated Group accounts.
